"Lake Junaluska provides a relaxing environment for professionals to train, network and rejuvenate. Symposium attendees often compliment the picturesque setting of the training location and mention that the training site is a compelling reason to attend our Symposium over other conferences. The great service we receive at Lake Junaluska from conference coordination, technical support/media, food service and on-site facility management creates a collaborative working relationship. In 2014, CACNC looks forward to celebrating our 20th year of hosting our annual event at Lake Junaluska!"
